SHAME AND REMORSE.

A Frail Damsel Takes Poison After a Debauch. It is a well-established fact that, no matter how-low a woman may fall, the inherent good that is in her nature always shows a tendency to reassert itself, and this is more pronounced in those who have been brought up under a mother's watchful care, sur-rounded by refining home influences. This inherent tendency is generally more apt to following some protracted debauch or some outrageous act of folly, when the full realization of her degradation grows upon the unfortunate woman until she is driven to despair, and is tempted to seek reitef from the fangs of conscience in the oblivion of the grave. Of course this is an extreme case, but enough of them happen to prove the general rule in fact, a case in point occurred Sunday night, when a room in the Wilcox lodging-bouse, on Spring, street consoite the

course this is an extreme case, but enough of them happen to prove the general rule—in fact, a case in point occurred Sunday night, when a room in the Witcox lodginghouse, on Spring street, opposite the Phillips-block, came very near being the Scene of a double tragedy, which was only averted by the merest accident. Some weeks ago a girl named Clara, with half a dozen aliases, took a room in the building. She is something above the average, so far as personal appearances go, and is a member of a highly respectable and weathly Spanish family of Santa Clara county, the name of which is withheld out of respect for their feelings. The girl led a very gay life, and had quite a humber of male admirers, with whom she spent the evenings in drinking wine and visiting questionable places of amusement. The girl Clara had a room-mate, a young girl who went by the very expressive, if not euphonious, name of Midge, and the two have of late got to be well known among the fast young men about town, and were frequently their companions on midmight larks. Matters have continued in this way for some time past, the girls growing bolder and taking more chances after each escapade; but at last they came to grief—at least Clara did, for last Friday morning, about 20° clock, she was found by Officer Grubbs, on Court street, howling drunk, and taken to the police station. She abused the officer terribly, calling him every opprobrious epithet in the calendar, teling him that she knew him in San José, and that he should not a rest her, and even after she was locked up she kept up the noise for several hours, calling on police officers and young men about town to come to her aid and have her released. She was kept locked up all night, and next day some one deposited \$20 for her, and she was released. The girl seemed greatly morthied over her arrest and retired to her room, where she remained pretty closely until Sunday afternoon. It is said by those who know the girl that she was in the habit of taking chioroform or laudanum when she coul

tose state, but a physician was summoned, a strong emetic was administered, and, after an hour or two of hard work the girl was brought back to the land of the living, feeling very sick, but in no immediate danger of death—at least from this attempt. The girl Midge was terribly rightened, and declared that she never intended to commit suicide, but did not explain how she came to have the handkerchief over her face. Clara, it is said, owned up that she was weary of life and wanted to die, but was feeling better yesterday, and will hardly repeat the experiment.

And now comes the strangest part of the whole affair. Although it was freely talked about on the streets, and at least a dozen parties seemed to know all the fext, no one about the Wilcox block appeared to tose state, but a physician was summoned,

and wanted to die, but was feeling better yesterday, and will hardly repeat the experiment.

And now comes the strangest part of the whole affair. Although it was freely talked about on the streets, and at least a dozen parties seemed to know all the feat, no one about the Wilcox block appeared to know anything about it. The relatives of the girl Clara had heard about it, and sent an old and trusted friend of the family to see her, but the landlady denied that any such occurrence had taken place, or even that such a girl had roomed there. A Times reporter, who had heard the story, and been told that it took place in room No. 37, also catled, but was told the same thing by the landlady, who even went so far as to show him the room, which was empty. The reporter then heard thin botter results. The reporter's informant, however, assured him that the story was straight, and gave him facts emough to ensure its genuineness, which was corroborated from other sources.

Bold Furglary.

Sunday, about noon, a bold robbery was committed at the residence of William H.
Morris, on Yarnell street, just north of Temple. The folks were down town, and during their absence a thief entered the house through a back window by cutting the wire screen. He went through every room and scattered things right and left, but succeeded in getting away with only \$5.50. The most singular part of the whole transaction is that there were a number of neighbors all around the house, and none of the provinced a hurging anter or leave. A meeting under the auspices of the Republican County Central Committee was held in Niles's Hall, Vernon, last evening. The following candidates were present and made short speeches: C. H. Dansmoor, D. W. Field, R. S. Platt, A. E. Davis, J. K. Brierly, Martin G. Aguirre and Frank P. Kelly. The meeting was both large and enthusiastic. A feature of the meeting was the cordial greeting extended to Martin Aguirre and C. H. Dunsmoor.

THE COUNCIL.

CAPT. H. B. BENEDICT ELECTED CHIEF OF POLICE.

Closed at 12 O'Clock at Night-A Lot of Routine Business Disposed Of-Rather a Quiet Meeting

The Council met yesterday morning at 10:30, the following members being present: Messrs. Book, Chandler, Collins, Gibbs, Hanley, Matthews, Moriarty, Sinsabaugh, Teed, and President Humphreys. The minutes of the three preceding ses

nons of last week were read and approved.

NO MORE CHECKS.

Mr. Book stated that the Council had previously recommended to the Board of Public Works that contractors file certified checks with their bids instead of bonds. This, in his opinion, worked a hardship to those contractors of this city who were anx-ious to do work, but had not large bank

accounts. They could furnish bonds, but often could not file certified checks. He moved that the previous action of the board be rescinded.

MESSAGE FROM THE MAYOR.

man, stating that he cannot leave the city at present, and appointing Dr. Sinsabaugh as his substitute on the committee to go east and inspect the working of the systems of sewerage. The nomination was confirmed by the Council.

Councilman Book was appointed by President Humphreys to fill the vacancy on the Board of Public Works caused by Dr. Sinsabaugh's absence.

the Board of Públic Works caused by Dr. Sinsabaugh's absence.

The Mayor sent in a message, in which he stated that the rapid settlement of the eyest part of the city is passing the capabilities of Temple street for travel. He stated that with a comparatively small expenditure of money and labor First street, west of Hill street, could be easily cut down to a practicable grade, and recommended that the matter be considered and promptly put through to completion. The message was referred to the Committee on Public Works.

REPORTS.

REPORTS.
Report of the City Auditor for September was received and referred to the Finance

Committee.

The Auditor also reported that he had appointed E. E. Danforth a clerk in his office. Approved by the Council.

The report of the Zanjero, of water receipts for September, was read and referred to the Finance Committee.

The report of the Zanjero in relation to reducing the water to winter rates was received and laid over to the last meeting of this month, so that the reduction can be made to begin November 1st.

The bills of labor, etc., of the Zanjero were referred to the Finance Committee.

EABLY CLOSING.

EARLY CLOSING. The Police Commissioners made a report and recommended that the City Attorney draw up an ordinance requiring all saloons

traw up an ordinance requiring an sacons to close from midnight to 5 a.m. hereafter. Dr. Sinsabaugh moved that an ordinance be so drawn. Carried unanimously. They also reported that Alfred José, one Goldsworthy and others had been QUARRYING STONE
in the city lands at East Los Angeles set
aside for a public park. They recommended,

as the contractors would suffer a heavy loss if interfered with at present, that they be allowed to continue till January 1st next; that the contractors be required to pay for what they take or fill up the holes again with earth, so as not to spoil the park, or both, as the Park Commissioners may determine. And that after January 1st no one be allowed to take rock from city property without making regular contract with the city authorities.

Mr. Chandler: Are those contractors old enough to vote?

President Humphreys: Yes; they are as old as you are. as the contractors would suffer a heavy loss

President Humphreys: Yes; they are as old as you are.

Mr. Chandler: Then they are old enough to know better. They have gone on the city lands and taken stone which did not belong to them, and because they have done that for a year or so is no reason why they should be allowed to go on any longer.

Dr. Sinsabaugh thought it was contrary to law and an injury to the city. He was in favor of different rules hereafter, but did not want to make not want to make

THE CONTRACTOR LOSE MONEY.

Mr. Severance was building a thirty thousand-dollar house with this stone, and if the sand-dollar house with this stone, and if the contract was shut down on he would have to finish it with a different style of stone, which would spoil it. Certain rights had been given by some one or other in the matter, and it would be wrong to curtail them. Mr. Collins thought it was nonsense having a park there, annway. There were great quantities of fine stone there from which the building interests of the city could be supplied and the treasury make a profit of \$500 to \$500 per month.

Dr. Sinsabaugh moved that the matter be referred to the Council as a committee of the whole to visit the spot and see what should be done about it. Carried unant-

mously.

Mr. Collins then moved that the recommendation of the Police Commissioners be adopted in reference to these parties being allowed to take away stone until January 1st. MR. GIBBS OBJECTED, that the Council had no right to give away

He said the office belonged to the Council to fill, and they should do it in their own time and way, and not at the nomination of the Mayor.

President Humphreys said that he was uncertain whether a confirmation needed 8 votes, the majority of those present, or if a majority of a quorum was sufficient. He asked the opinion of the City Attorney on the oneston.

Mr. Humphrevs only cared for an answer as to the number of votes needed for confirmation, but Mr. Daly refused to answer at all unless the question and answer were put in writing.

Twelve o'clock struck, and the Council adjourned till 1:30 p.m., leaving the vote unanswered, whilö Clerk Teed wrote out the questions for Mr. Daly.

Afternoon Session

On reassembling the same members were present as in the morning. While awaiting the answers of the City Attorney the gular business was proceeded with. regular business was proceeded with.

Mr. Teed stated that Sainsevain street, at
the corner of Alameda, is obstructed some
10 feet out by the fence, etc., of Mr. Cohn.
This 10 feet was bought by the city and

The Superintendent of Streets reports that contractor Burlingame has not finished Lucas avenue, though his time is up.

I. W. Hellman and others protested against the paving of Fourth street, between Main and Spring streets, as that kind of pavement had not yet been sufficiently tested. The petition was filed, though Councilman Chandler though the property-owners ought to have something to property-owners ought to have something t say about it.

THE OSTRICH FARM BAILWAY COMPANY asked for ordinance to connect with Tem-ple-street cable road at Victor and Temple streets from their present road at Beaudry and Elysian Park avenues. The petition was denied.

Residents on Victor avenue protested against a franchise on that avenue being granted to the Los-Angeles County Rail-road.

M. L. Wicks notified the Council that the

M. L. Wicks notined the council like size courts had enjoined the city from opening Ninth street, east of Lemon, and that the property-owners had already opened an 80-foot street to suit themselves.

Max Pecaliey was appointed clerk of the hay market on Sixth street. Dr. Sinsa-baugh said that he had been injured in the city's service and deserved the place. Mr. Collins moved to make the pay \$60 a month. Carried.

BAD DRAINAGE. Mr. Book made a speech about the condi-tion of Second street, near the cable-road engine-house, and said it was a great dis-

tion of Second street, near the conservous engine-house, and said it was a great disgrace. The leakage from the woolen mill ditch accumulates there and makes it marshy and unhealthy. He asked the City Surveyor what could be done about it. The latter explained that a drain is now being built down Pearl and Flower streets, and that the water can then be piped off from Second street, where at present it has no outlet. After a lengthy discussion the matter was laid over.

The matter of establishing the line of First street, west of Fort, and removing all obstructions from the north part or the street was postponed till Surveyor Hansen can testify as to the width of the street. On motion of Dr. Sinsabaugh, Dr. Franklin of Boyle Heights made an address in favor of an electric light mast on Brooklyn Heights. The committee were granted another week to report.

The Supply Committee reported in favor of making a contract with the

BLACK DIAMOND COAL COMPANY to supply the city with coal for one year at \$11 per ton. It was so ordered.

The City Surveyor presented a report, in which he stated that the sewer on Fort street, from Temple to Franklin, and thence down Franklin to Spring, was little more than two feet under ground. From Franklin to First, and below Fourth street, it was in serviceable condition and seven feet deep. It was necessary to relay that between Temple and Franklin and First and Fourth streets.

Fourth streets.

The Clerk was directed to advertise for bids for constructing the sewer in Fort street from Temple to Sixth, except those portions that are all right; also for sewer in First street, from Main to Center streets. THE SUPERINTENDENT OF STREETS

was instructed to relay the sewer on Com geles, as it is too near the surface and the contractor wants to pave the street. He estimated the cost a \$150. Mr. Chandler objected that it is not the city's place to do so. The motion was carried, however. The City Attorney was instructed to draft resolutions for a 24-inch storm drain of brick from Pearl and Temple to

THAT WRITTEN OPINION.
City Attorney Daly sent to the clerk's city Attorney Day sent to the cierk's desk his answer to the two questions propounded him at noontime. First, "Had the Mayor the right to nominate a chief of police, or did his election lie wholly with the Council?" Mr. Daley said that if it was to fill the balance of an unexpired term the Mayor should nominate and the Council confirm an officer. But the Council had expressly declared that all city officials appointed by it, held office only during its pleasure. Henge he held that Mr. Cuddy's term had terminated when his resignation was accepted, that there was no unexpired term to fill, and that a new chief could not be nominated by the Mayor, but must be elected by resolution of the Council."

In regard to the second question, whether it took a majority of the Council to confirm or only a majority of the Council to confirm or only a majority of the Council had, however, in confirming Chief Cuddy acted on the rule that it took eight votes, a majority of all elected. If that rule is not adhered to it would seem thot the Council can vary the rule as It deems best. The City Attorney himself gave no decided opinion.

PRESIDENT HUMPHREYS

the assence of Messis. Loven and Dossyshell.

THE CART REFORE THE HORSE.
The Fire Commissioners asked that a contract be awarded to Richard Maloney for two two-wheeled hose carts at \$400 cach, and that the City Attorney draw up specifications as made by the Chief Engineer. In answer to a question Cierk Teed stated that the hose carts have been ordered by the Fire Commissioners and are already on their way here. The contract was then awarded as requested, and the City Attorney can now draw un his specifications.

An additional \$25 each for "paraphér nalia" for the carts was then voted.
The report also favored the purchase from James Neasmith for \$630 of a four-wheeled nose carriage to more than 100 feet of hose.

The cost was said to be \$750, but they could specific the case had no interest for the Council, he objected to any flings being made at him in a Specific RBOM THE THRONE.

The President might exercise his own judgment if he pleased, but it was his opinion that he was incapable of an unbiased judgment.

President Humphreys interrupted and explained to Mr. Daiy that he had thought that he concurred with him in his remarks. So far from being in antaronism to his opinion, he meant to, and thought that he did, justify it and back it up.

Mr. Daiy, being mollified, explained the law of the case, and reiterated his belief that the election lay wholly with the Council. As to the number of members required to confirm he repeated the non-committal doctrine that the Council must judge for itself.

CATARRH.

The term catarrh is applied to a peculiar disorder of the nostrils and adjacent parts, which prevails to an alarming extent and is productive of very serious consequences.

The most prominent and characteristic feature is a morbid discharge from the head, varying in its nature at different times. In some there is an aimost constant flow of clear, acrid fluid, but offener an infensive, purulent of seconds, which accumulates in the nostrils or drops into the throat, necessitaring its frequent removal by blowing the nose or expectoration, and often by both processes. Sometimes patients feel as though their whole head was in a state of rottenness, so great is the amount of matter discharged and so fetid is its odor. The patient is greatly annoyed by the constant dropping into the throat of the morbid matter from the head, and as a recument, his rest is frequently distributed to the wild the bead very much elevated in order to sleep with some degree of comfort.

sleep with some degree of comfort.

In others a tough, visicd and
phiegm collects behind and above the sort
paints, in the passage parts with guish tenactry. Its lodgment embarrasses respiration and
creates a sensation of irritation and uneasiness in the affected locality, which gives rise
to a constant and simost irresistible desire to
relieve the discomfort by drawing the mucous
into the threat so as to eject it by the mouth,
This practice, popularly known as "hawking,"
is characteristic of catarrh, and proves as embarrassing to the one affected as it is disagreeable to those around him.

fragments of a deep green that. In some cases
these incrustations accumulate to such an extent as to form a regular plug in the nose,
which obstructs breathing and produces serious discomfort. So firmly do these incrustations adhere to the point of attachment that
their removal usually requires the most violent efforts; not unrequently they have to be

there are generally traces of blood but in
some cases the cast presents a tubular appearance, being of exact shape of the nasal
eavity. This condition is indicative of ulceration, which, in time, may destroy the bony
structure of the nose and produce a subsequent flattening of that organ.

Cases are occasionally met with in which a
thick, viscid, simy secretion coats the membrane of the nasal eavity of the nasal
feeling of dryness, heat and feverishness in
the head and nose—a condition popularly
known as "Dry Gatarrh."

The disease speedily extends to the air cavtitles of the bones of the fore

The breath is always tainted and at times assumes an exceedingly fetid and sickening odor. In some cases it becomes so revoltingly offensive as to render the sufferer an object of disgust to himself as well as to others. The nasal membrane is thickened and congested, causing the nose to be stopped up, sometimes on one side, sometimes on the other, and often on both, giving rise to a disagreeable, stuffy sensation in the head, and occasioning violent and prolonged paroxysms of sneezing.

The voice is weak, indistinct and husky, or et a nasal character, displaying a sort of sniffing quality and discordance. There is also a nemeer firstation in the throat, and frequent attempts to clear the parts of phiegm, producing the sound "nem," more or less forcibly. In some cases patients complain of an uncomfortable feeling of fulness, or a choky sensation in the throat, and in others of a distressing and almost constant dryness, for the temporary relief of which they have to swallow frequently. Others, again, speak of a constant bad or nauseous taste in the mouth or throat. The stoment generally suffers more or less and becomes weak and irritable; the appoint is capricious and nearly siways bad in the morning. The patient is languid, unable to perform mental or physical labor with the usual facility, is nervous, depressed in spirits, at times fearful timid, agitated and inclined to drowsiness and sicep, the memory weak-ened and permanent impairment seriously throatened.

The mucous membrane soon becomes morbidly sensitive to unfavorable influences, and
in spite of the utmost care becomes affected

rise to serious disturbances of the respiratory
organs. Thus the patient is subject to frequent and repeated colds, each attack aggravating the disease by giving it a new impulse
and involving a larger extent of surface than
its predecessor. In this manner the difficulty
spreads from organ to organ, invading the
throat, larynx, truches and bronchial thes,
until, encroaching further and further, it
reaches the finer ramifications of the bronchi,
when but a slight impulse is required to send
it to the lungs. Catarrh may, and often does,
affect other organs in the body, especially
those containing a mucous membrane, such
as the stomach, bowels, kidners, etc.

By the employment of proper inhalation in
the form of medicated vapor (not steam or
spray) we are able to produce immediate and
direct action upon the diseased surface in
the larynx and mass passages, for air will
find its way into the most remote and intricate
cavities, where it is utterly impossible to make
fluid applications. By these means every case
can be cured.

Persons desiring treatment by this system
of practice can use the remedies at home as
well as at our office, and which will cause no
loconvenience or hindrance to business whateevery containing the produce in the cavities, where it is utterly impossible to make
fluid applications. By these means every case

SILK SALE!

OPENING DAY!

J. M. HALE & CO.'S,

Wednesday, October 3d.

As a general exposition of fine DRESS SILKS there cannot be found anything more complete than the line we are about to open to public view. Our buyers-we say our buyers because we have two in eastern markets every day in the year-have been exceedingly liberal in their ideas-liberal in more than one sense-liberal in quantity as well as in choice of selection, and the result is 10,000 yards of the latest styles of Silks, which we are going to throw on our counters at exact cost—at cost to stimulate the market and to make room for an immense duplicate stock now being shipped from New York. Our show windows will be resplendent with brilliancy, giving the intending purchaser an idea of style, prices and effect. We do not stop at anything when we have an object in view, and the result is that we enjoy the confidence of every buyer, when value is taken into consideration.

ONE unique feature of the working of the high-license law in New Jersey is that the liceused liquor dealers of Bergen county offer to lay before the Grand Jury the cases of 120 unlicensed dealers for prosecution. What to Do with the Surplus.

In a recent speech, Gen. Harrison expressed some very sound views in regard to what should be done with the nuch-dreaded surplus. He showed that the only method which the Demo crats have found is that of depositing it in the national banks of the country to be loaned out by them to our citizens at interest, the Government getting no interest whatever from the banks. Gen. Harrison suggested the same policy which Senator Sherman has advocated with great ability in the cause the Government would make some money in applying it that way and there was no other way in which they could get any interest on it at all.

It has been said that if the surplus is used in this manner we pay a premium to the bondholders, but as Gen. Harrison showed, it is only the same in the market. The Government can buy these bonds at that premium and save a great deal of interest. Going into details, Gen. Harrison said:

One issue of these bonds matures in 1907, and bears 4 per cent, annual interest. Now,

into details, Gen. Harrison said:

One issue of these bonds matures in 1907, and bears 4 per cent. annual interest. Now, suppose this surplus money were to remain all that time in the banks without bringing any interest to the Government, is there a man here so blind that he cannot see the great loss that would result to the people? I have another objection to this policy; the favoritism that is involved in it. We have heard—and from such high authority that 1 think that we must accept it as true—that the great patronage appertaining to the office of President of the United States involves a public peril. Now, suppose we add to that danger \$100,000,000 that the Secretary of the Treasury can put in this community or that, in this bank or that, at his pleasure, is not the power of the Executive perilously increased? Is it right that the use of this vast sum should be a matter of mere favoritism; that the Secretary should be allowed to put \$10,000,000 of this surplus in Indianapolis and none of it in Kansas City, or \$75,000,000 in New York and none in Indianapolis. If the money is used in buying bonds it finds its natur it place—goes where it belongs. This is a most serious objection to the present method of dealing with the surplus. But if you still object to paying the market premium when we buy these bonds, see how it works the other way. The banks deposit their bonds in the Treasury to secure their deposits, get the government money without interest, and still draw interest on their bonds. If any one of you had \$12.00 that you could not put out at interest so as to offset the interest on your note, would you not make money by using this surplus to take up the note at a fair premium? Would you think it wise finance to rive the thousand dollars that you had \$12.00 that you could not put note with you as security, you paying interest on then the until it was due, and getting no interest on your deposit?

The Republican Tariff Bill.

Enough has been learned of the details of the Republican Tariff Bill to enable it to be stated that the reduction on sugar is one-half of the existing duty. The total internal revenue tax is removed from tobacco, cigars and cigarettes. The report that cigars and cigarettes are excepted is erroneous. Lumber and salt are left as they are, Mr. Plumb, who had declared that be would not vote for the bill without

the party which thrived upon slave labor and forced the country into a civil war to prevent industrial freedom should stand for what it seems the next best thing-the lowest-priced free labor. No one should be surprised that the Democratic party has embraced English economics. That is the natural goal to which it has been tending for years. Free trade, pure and simple, was one of the chief articles in the written constitution of its slave-holding confederacy. They may deny that they stand for

The Reduction by the Mills Bill.

The free-traders continue to repeat their statement regarding the amount of reduction in the Mills Bill, although it has been conclusively shown to be false. The reduction proposed by the Mills Bill is over 25 per cent. on the articles remaining dutiable in the schedules affected by the bill, without taking into consideration the fact that one-sixth of the dutiable imports of 1887 has been put on the free list. CAPT. H. H. BENEDICT has been appointed Chief of Police and has entered upon the discharge of his duties. Mr. Benedict is favorably known in Los Angeles, where he has held the position of captain of the police force for several years. We trust that he may succeed in establishing the needed reforms in that important branch of the municipal government and in enforcing a respect for the law among those who have been in the habit of treating it with contempt.

AMUSEMENTS.

AT THE OPERA-HOUSE.—The first act of Miss Jarbeau's musical mixture called Startight is inexcusably bad; there is neither sense nor what can be called sing-ing in all its length or breadth, but as the evening goes on, the merits of the company begin to show quite fairly.

Vernona Jarbeau herself has no longer a

voice, nor a pretty face, but she still has the abandon, the immense vivacity, the "go" that creates a response in any audi-

ence, and makes one forget, for the moment, to criticise.

The groups of pretty girls so fondly promised, resolved themselves into just four; one of these—Lottie Alter—is so graceful, so full of life, so like an esthetic picture as to deserve more of the future than a minor rôle in Startight.

The eleverest thing of the evening is Miss Jarbeau's immitation of Mme. Theo, which was done to the life and to the accent. The audience was good in numbers and good-humored, and the applause was fast and furious, especially upstairs.

Startight is repeated tonight.

A BRUTAL HUSBAND.

Trying Hard to Earn a Coat of Tar and Feathers. Residents in the neighborhood of Louisi-ana and Breed streets, Boyle Heights, are considerably worked up over the brutal treatment of a woman in that vicinity by her husband. Last Friday night the woman rushed from the house upon the porch screaming murder at the top of her voice with her six-weeks-old infant in her arms, and when the neighbors gathered about the piace, she said that her husband had been beating her, and had tried to kill her. It was dark at the time, and her face could not be seen, but she said that it bore the marks of her husband's violence. The woman begged piteously to be allowed to leave the place, but the man stood in the doorway, and refused either to let' her pass out or to allow the neighbors to enter. It is said that when the infant was only 3 days only the brute of a husband ordered his wife to get up out of bed or he would kick her out, and that even during this period the poor woman was denied the necessaries of life. The man, it is said, is well-to-do, but, from all accounts, is a perfect brute. From some cause, the woman refuses to swear out a complaint against him, and, as none of those living about the place have ever actually seen him strike her, he has so far escaped. Unless something is done' very soon, the men in the vicinity say that they will form a committee and give the fiend a dose of tar and feathers, as his actions are a scandal to the entire neighborhood. place, she said that her husband had been feathers, as his actions are a scandal to the entire neighborhood.

in sympathy with the reform principles of

his aim and object to give the city a good

that if there were any laws that were not

Rev. Jean Yane, who addressed the young men's meeting last Sunday, has been secured to speak at the members' monthly meeting of the Young Men's Christian Asmeeting of the Young Men's Christian Association this evening. This is the regular monthly meeting of the association, at which time the progress of the month is reported by the various acting committees. This has been a very active month with the association, and consequently some good reports are expected.

Delegates will also be elected to the teighth annual State convention, which meets at Fresno October 10th to 15th. This is expected to be one of the grandest conventions ever held in the State.

The meeting tonight will be held in the lecture-room of the First Presbyterian Church.

A prominent lawyer who handles Chinese cases almost exclusively in the Federal courts stated that in his opinion writs of habeas corpus would still have to be issued to Chinese demanding them, as it was a constitutional right, and that ball also would have to be issued as heretofore. He also expressed the belief that all Chinese holding return certificates could return to this country in spite of the exclusion bill, as the United States Supreme Court has decided on several occasions that Congress cannot annul existing contracts, such as these certificates are.

RETALIATION. .

American Kerosene to Be Excluded New York, Oct. 1.—[By the Associated Press.] China, or at least some of the officials of China, wish to retaliate for the American restriction laws by laws prohibiting the importation of American kero sene into China. Chang Chi Tung, Vice Chang Chi Tung, Viceroy of Canton, has addressed a memorial to the Emperor in which he arraigns kerosene

as a great menace to the peace and pros-perity of the Empire. It burned up 400 houses in Swatow not long ago, he says, and before that destroyed a steamer and cost 800 people their lives. Soon afterward it burned 1000 houses in Canton and destroyed \$10,000,000 worth of property. It is responsible, he says, for nine-tenths of the fires every winter in Canton. He declares that it has done incalculable injury to life and property, and that it is worse than opium, being most swift and terrible in its deadliness, and that it has almost destroyed the native industry in peanut, edsea and bean oils. On account of its evil deeds the Viceroy says he did his best last year to kill the trade in kerosene by raising the inland transit dues on it, but the feil destroyer was too subtle to be driven out by this process, and the evil is increasing rather than diminishing. Therefore the Viceroy now petitions the throne for aid in the struggle with the foreign trader, who, under guise of friendship, insists on profiting himself by introducing an article highly injurious to the welfare of China. The Viceroy points out that there is no difficulty in putting an end to the baneful traffic, because the treaty of 1881 with America makes provisions to limit Chinese immigration to that country on account of the eadliness, and that it has almost destroyed

makes provisions to limit Chinese immigration to that country on account of the competition of Chinese labor being objectionable and injurious to their interests. "We have an equal right to prohibit the importation of kerosene," he says, "when it is injurious to us. The law that nations have a right to protect their own interests and prevent injury being done their people applies to both countries alike, if there be any justice, and when any government acts on this principle, no objection can be raised by the other." The Vicercy, therefore, formally requests that a stop be instantly put to the importation of kerosene.

CHICAGO, Oct. 1.—[By the Associated Press.] The excitement on 'Change over the September wheat deal ceased on Satururday to be resumed this morning. When the opening bell tapped at 10:30 the failures of Frank Clifton & Co. and S. C. Orr were announced, and this only added to the ex-

citement. The crowd began to lose their heads because of the heavy covering in De cember wheat. There was a perfect craze to buy. The advance for 30 minutes was most remarkable, and there is no felling where it would have ceased had not where it would have ceased had not Hutchinson eased the market by liberal selling. S. C. Orr said that his liabilities are about \$50,000, and that his suspension is due to failure on the part of customers to respond to his calls for margins. He said he would be able to resume in a day or two. From friends of the other firm it was learned that it was short about 50,000 bushels of September wheat, also on October lard.

Many retail bread-dealers of this city have raised the price of bread 1 cent per loaf on account of the increased price of wheat.

The Bessemer Company Wins. PITTSBURGH (Pa.), Oct. 1.—In the Sta Supreme Court today, Justice Green handed down an opinion dismissing the appeal of Jacob Reese of Pittsburgh in the suit of the Bessemer Steel Company. The action was brought by the Bessemer Steel Com-pany to compel Reese to transer certain pany to compel Reese to trainer certain patents involving the basic process in the manufacture of steel. The court below decreed that Reese must assign all patents to the Bessemer Steel Company, for which the latter was to pay Reese the sum of \$31,000. That opinion is sustained. Mr. Reese desired to introduce these patents in the South, and the Bessemer company wished to prevent their use. Reese says that by the decision of the Supreme Court he loses 20 or 30 patents, the value of which is \$50,000,000.

On Saturday the couple eloped, the girl taking \$5000 of her own money.

Watterson at Home Louisville, Oct. 1.—In spite of a heavy rain just at the hour of his arrival, Hon. Henry Watterson had a most enthusiastic reception upon his return to his home here tonight at 7:30 o'clock. At Liederkranz Hall the speeches of the evening were made. The pyrotechnic display had been partly spoiled by the rain, but nearly 3000 people had gathered, packing the hall, and the fireworks were soon forgotten in the speaking. Watterson was introduced by Mayor Jacobs in a neat speach of welcome, and followed with an address lasting over an hour. He was succeeded on the platform by Hon. Boyd Winchester, Minister to Switzerland, who is on a visit to his hone friends here. Both speakers were roundly applauded throughout. Hall the speeches of the evening were

theatrical agent, who managed Patti while she was on her last trip to South America, in a letter to a friend in New York from Montevedeo, says:

"The girls here are the loveliest I ever saw. There is one part of the house where they only allow ladies. That is the 'cazuea.' It is the circle just below the gallery, or 'paraiso,' and one of the male sex is not allowed there, and ladies are not allowed to wear bonnets in the Cazuela. The front row is rein the Cazuela. The front row is reserved, and we charge \$\mathbb{S}\$ for these seats. The back rows are for the admission tickets to the Cazuela, and for these we get \$1.50. At about 5 o'clock the young ladies commence congregating at the door, and there they stand until 7 o'clock, and keep up such a clatter and row that the police often compel us to open the doors and let them in at 6:30. You should see the scramble. They are worse than men or boys. They take the seats back of the front row, and those who are lucky in the Cazuela. The front row is rethe front row, and those who are lucky get a seat, while the unfortunate dam-sels are compelled to stand up. This place will hold about 800 women, and it is a beautiful sight to look up at them in all the colors of the rainbow—beautiful brunettes, all bedecked in diamonds. At the close of the performance a platon of soldiers—50 men—forms on each side of the door at the exit to the streets, and keeps the crowd back, so that the young ladies can deback, so that the young ladies can de-part in peace, and as they go they are met by their brothers or fathers or some escort to see them home."

Joaquin Miller and His Daughter [Current Literature.]
It is a pretty well-known fact that his daughter does not hold her gifted father in that admiration with which the world regards him. He left her among the Indians too long. It spoiled her temper and dwarfed her appreciation of genius. A few years ago Joaquin got out an edition de luxe of his poems, which he embellished with likenesses of himself in various picturesque costumes and attitudes—Mr. Miller among the Sierras, Mr. Miller on Mt. Shasta, Mr. Miller shaking hands with the filibuster chief, Mr. Miller on horseback, and so on. One plate he reserved for his daughter, Miss Myrtle Miller. She had the post of honor in the middle of the book and was seated on a prancing mustang, her hair flying on a prancing mustang, her hair hying toward the top of the page and a lurid light effect behind her. Joaquin sent a copy to Miss Miller with his dis-tinguished autograph on the fly leaf. She glanced through the book, appreclated its contents, ran a pencil through her own name beneath the wild and reckless female, and writing below it: "Mr. Miller, when he was a girl," sent it back to him.

Gambling in Virginia. George Alfred Townsend says that the particular vice of Virginia is gam-bling, and he relates this incident of his recent tour through the State: "When I returned from Leesburg I heard two year tabling being for the heard two men talking behind for the space of two hours, and their whole conversation was descriptive of games of cards held the night beforehow one man had held two pairs and another had a full, etc. Into this game these grown-up men of respectable appropriate this game these grown-up men of respectable appearance—men probably 50 years of age—went with a minutize and a relish that was astonishing." At the Virginia villages, he says, you see the young men ride up at about 11 o'clock and hitch their horses. They enter the groggeries, in the back part of which, behind a sheet, are tables for card playing. There they drink bad whisky and win each other's money till about 5 o'clock in the afternoon, when they mount their horses and ride

PASADENA, Oct. 1 .- [Correspondence of The Times.] An immense congregation filled the First Presbyterian Church yesterday morning at

the opening of the dedicatory services. The decorations were beautiful, worth going a long distance to see. Prof. Dunster's playing was grand. His selections were very fine. The choir, composed of Misses Kramer, Stoats, Crittendon and Maxfield, sopranos; Miss Humphrey and Mrs. Coleman, contraltos; Messrs. Van Doren, Johnson, Ott and Dr. Green, bases; Messrs. Bremner and Cates, tenors,

sang excellently. Services were opened by singing the doxology. Rev. A. M. Merwin of South Pasadena invoked divine blessing. A chapter from the Scriptures was read by Rev. Dr. Stewart of Riverside. He took for his text the eighth verse of the thirteenth chapter of Revelations: "The Lamb slain from the foundation of the world." After the sermon several beautiful hymns were sung. The evening services were also well attended.

FUNERAL OF MR. PERMAR. The funeral services of J. M. Permar, who died Friday night at Los Angeles, was held this afternoon at the residence of his son-in-law, W. J. Thomas. A large number of friends were present. The services were con-ducted by the A.O.U.W., of which order the deceased had been a member.

THE COUNCIL.

Mr. Daly interpreted it, he should not have made the nomination. He did not mean to usurp functions not included in his office.

While the debate was raging hottest. President Humphreys said that he would settle the question, and decided Benedict confirmed as Chief of Police by the morning's vote of 6 to 4. He said that if his nettion was wrong, the Council could remedy it next meeting, or at any time, and he hoped that now there would be no more fuss of worry over this Chief of Police matter.

HIS HOPES WERE JUSTIFIED, for the Council took it very mildly, and no one kicked except Mr. Collins, who denounced such a choke off, and said he would never vote for paying Benedict a dollor, and moved that his name be not placed on the pay roll. The motion was not seconded, and the President announced that it was all settled.

it was all settled.

A resolution was introduced that Attorney Daly have more help to get data for district assessment, maps, etc., for sewer bonds. He explained that to assess the whole city for a sewer in one part of it would be impossible, and the assessments could not be enforced. The cost of each sewer must be assessed on those directly benefited by it, and to get such data for issuing district bonds he must have more help. Mr. Chandler paid taxes himself and wanted this sewer business expedited, but how was it to be done? Till he saw his way clear he would vote no. He didn't believe in district bonds. The resolution was laid over.

FORT-STREET M. E. CHURCH, and asked that the new pavement might be and asked that the new pavement might be made to join property on with the old at that point. The church people had put their sidewalk on grade, and now a new grade is given and a serious jog results. The City Surveyor explained that the difference is due to the contractor's changing the grade after it is given, and recommended that hereafter they be not paid by owners till their work is checked. The matter was referred to the City Surveyor and Superintendent of Streets.

THE SCALE-BUGS.
Dr. Sinsabaugh introduced a resolution

that the Board of Health be directed to remove all trees within the city limits infected with the scale-bugs, unless the owners themselves take the necessary steps. The resolution was carried.

A number of bids for street work were opened, and the board then adjourned till next Monday at 10 a.m.
